# Professional Experience

---

## Frontend Developer

Graycode Technology Pvt. Ltd.  
Pulchowk, Lalitpur

Jan 2024 – present

- Built responsive UIs using React.js and Next.js to deliver smooth and dynamics experiences across devices.
- Server-side rendering (SSR) on Next.js to boost the performance of a website and serve better SEO features.
- Successfully built the official website and developed various eCommerce portals per business needs.
- RESTful APIs were integrated in the frontend for the proper dynamic content and to facilitate better interaction between a client and a server.
- An overall eCommerce website like BigBasket with advanced search filters, strong product categorization, and easy checkout.
- Works with cross-functional teams to complete the project while addressing challenging frontend issues and delivering within timelines.
- Managed multiple responsibilities well by prioritizing tasks and deadlines without sacrificing quality.

## Projects

---

- **Tech Solutions Website**
  - Designed and built a responsive, high-performance website using React.js and modern UI principles.
  - Improved website load speed and ensured seamless user experience across devices.
- **E-Commerce Application**
  - Developed an e-commerce platform with advanced search, product categorization, and a streamlined checkout process.
  - Integrated RESTful APIs for efficient backend communication and data management.
- **Engineering Service Website**
  - Built a modern and responsive website for an engineering services company using React.js and Next.js.
  - Optimized navigation and improved performance for better user engagement.
- **Banking Website Optimization**
  - Contributed to frontend architecture improvements, bug resolution, and performance optimization.
  - Enhanced system reliability and ensured a user-friendly interface for banking services.

## **Trainings and Certifications**
